

10. **STABILITY AND REACTIVITY:**

Completely stable at ambient temperatures. May react vigorously with oxidising agents.

11. **TOXICOLOGICAL INFORMATION:**

The preparation has a very low order of toxicity by ingestion and may be regarded as non-hazardous for all practical purposes.

12. **ECOLOGICAL INFORMATION:**

The preparation contains no constituents considered to be environmentally harmful.

13. **DISPOSAL CONSIDERATIONS:**

No special regulations apply.

14. **TRANSPORT INFORMATION:**

The following information applies

- 1.
2. UNNO
3. CLS NO LABEL ASSIGNMENT
4. SH UNDER CHIP REGULATIONS
5. EAC
6. HI
7. T
8. B
9. PG
